PROFESSIONAL SUMMARY

.NET Developer with 7+ years of experience building enterprise ERP and healthcare applications with C#, .NET 8 / .NET Core, ASP.NET Core Web API, SQL Server and Angular. Designs and builds RESTful APIs and loosely coupled, API-driven modules following microservices principles, integrated with Microsoft Azure services: Azure Active Directory (Entra ID), Microsoft Graph API, Azure Blob Storage and Azure SQL Database. Strong in secure authentication (Azure AD, JWT, role-based authorization, single sign-on), Entity Framework Core and LINQ, SQL performance tuning, SOLID and layered architecture. Works across the full lifecycle with Git and CI/CD pipelines, from requirements to deployment and production support. Currently delivering ERP modules for SP EPC (Shapoorji Pallonji) end to end, from Angular UI to Web API to SQL Server.

TECHNICAL SKILLS

Backend: C#, .NET 8, .NET Core, ASP.NET Core, ASP.NET MVC, Web API, RESTful APIs, Microservices principles, JWT authentication, ASP.NET Web Forms

Microsoft Azure: Azure Active Directory / Entra ID (app registrations, OAuth 2.0 / OpenID Connect, RBAC), Microsoft Graph API (users, groups, profile data), Azure Blob Storage (file upload/download, containers, SAS access), Azure SQL Database

Data Access & DB: Entity Framework Core (Code First / DB First), LINQ, ADO.NET; SQL Server: stored procedures, views, functions, CTEs, indexing, query tuning (SQL Server Profiler)

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, jQuery, AJAX, Razor Views

Architecture: N-tier / layered architecture, Repository pattern, SOLID principles, OOP, unit testing, debugging and root-cause analysis

DevOps & Tools: Git, GitHub, GitLab, CI/CD pipelines, Docker (basic), IIS hosting (app pools, SSL, publishing), Visual Studio 2019–2022, Postman, SSMS

Reporting: SAP Crystal Reports, Telerik Reports

PROFESSIONAL EXPERIENCE

Orient Technology Ltd. Aug 2024 – Present

.NET Developer | Project: EPC ERP | Client: SP EPC (Shapoorji Pallonji Engineering, Procurement & Construction) | Team: 4

- Develop and maintain an ERP platform covering procurement, project management and resource planning, using .NET 8 Web API, Angular and SQL Server, with Crystal Reports for real-time reporting.
- Built end-to-end modules (Angular UI, .NET Web API, SQL Server stored procedures): Drawing Master and Drawing Release, Critical Issue dashboard, Bid / No-Bid workflow with weightage engine, Conference Room & Lunch Booking, Correspondences and Activity Details.
- Implemented single sign-on from the legacy Web Forms portal into the Angular application using a short-lived, host-scoped cookie and server-side token exchange, so no credentials are passed in URLs.
- Diagnosed application slowness as network-bound rather than database-bound and improved load times with HTTP response compression and SQL connection-pool warm-up.
- Secured REST APIs with JWT-based authentication and role-based authorization.
- Built API-driven, loosely coupled modules following microservices principles, with unit tests for business logic to keep releases stable.
- Work with CI/CD pipelines for automated build and deployment; use Docker (basic) and Azure Storage; write and maintain stored procedures, views and functions; handle IIS deployments and production support.

Technologies: .NET 8, Entity Framework, LINQ, ADO.NET, Web API, Razor Views, Angular, TypeScript, JavaScript, jQuery, AJAX, Crystal Reports, SQL Server, FTP

Medimaze Solution Pvt. Ltd. (formerly Techjivaa Software Pvt. Ltd.) Jun 2022 – Aug 2024

Software Developer | Healthcare ERP | Team: 17

- Krsnaa ERP and Krsnaa Admin Portal (Client: Krsnaa Diagnostic): developed and maintained ERP solutions, streamlining operational processes across the healthcare and diagnostics domain.
- ABHA ERP (Client: Assam Government): worked on a healthcare-management ERP aimed at improving patient care, operational efficiency and data-driven decision-making.
- Built Angular front ends, Web APIs and MVC views with jQuery / AJAX, produced Telerik reports, and used GitLab for version control in a 17-member team.

Technologies: Angular, .NET 8, ASP.NET MVC, ADO.NET, Web API, Telerik Reports, AJAX, JavaScript, jQuery, SQL Server, GitLab

Reliance Jio Jul 2021 – May 2022

Software Engineer | Project: FTTx Portal System

- Developed the FTTx (optical fibre) portal used to manage fibre rollout work across the Construction, GIS and Production teams.
- Built a Live Tracker to monitor fibre work in progress, so each team could follow the current status of the work.
- Developed portal modules using ASP.NET Core MVC, C# and SQL Server.

Glyphisoft Technology Pvt. Ltd. Jul 2019 – Feb 2021

.NET Developer | Project: ERP System

- Developed and maintained modules of an enterprise ERP system using ASP.NET Core MVC, C# and SQL Server.
- Worked across the development cycle: understanding requirements, coding, testing, bug fixing and support.

EDUCATION

Bachelor of Technology – Maharshi Dayanand University (MDU), Rohtak – GITM College 2013 – 2017

LANGUAGES

English, Hindi
